

SPARE HEADBOXES

All boxes are made out of heavy gauge steel

Knockouts and shelf to accommodate any 1/2" or 3/4" heads

All-welded construction and full length hinge

Powder coated red enamel

Slotted for easy mounting with screws, rivets or strapping.

3 Head Box

12 Head Box

6 Head Box

6 Large Head Box

Designed to allow for spare sprinkler head storage as required by NFPA guidelines. The Spare Sprinkler Head Cabinets are available in four configurations. Three head, six head, six head ESFR and twelve head. All four styles are manufactured with "knockouts" to accommodate the most common size sprinklers. The shelf is located to allow for the storage of a typical sprinkler head wrench.

Each cabinet is finished with a red enamel finish. Each spare head cabinet comes with a hinged door that remains closed to protect the spare sprinklers from the elements and features two holes on the back panel to allow for attachment to most surfaces utilizing the appropriate fasteners.

Once the correct Spare Sprinkler Head Cabinet has been selected, installation is accomplished by inserting the correct fastener in each of the two holes inside the cabinet, securing the cabinet securely to the wall.
